

Super Dustpit Flormat Japan

Our Super Dustpit is an open-construction matting made of 100% resilient vinyl.

It is designed to allow water to run through and thereby offers a drier surface that enhances safety and hygiene. It also has Anti-bacterial and Fire-retardant properties that meet with Japan Industrial Standards.

The special compound is resistant to chemicals commonly found in locker rooms, saunas, whirlpool, etc.

Application:

Perfect for wet and dry weather, entrances, and corridors at department stores, restaurants, saunas, whirlpool, locker room, hospitals and other high-traffic areas.

Size: 0.9m x 6m

Colour: Brown & Grey

Thickness: 8mm

Weight: 24kg
